## A FOODILOQUY

To eat or not to eat. That is the question; Whether it is nobler in the mind to suffer The pangs of an almost insatiable hunger Or take up arms against a sea of troubles. Outrageous prices, discourteous tradesmen, Or is it best to starve and never know them? To get along on grits and cornmeal cutlets Or go and live with the wife's folks? Which is, perhaps, A consummation devoutly to be wished.

—W. SHAKE.

## CHRISTIAN CHURCH NOTES

Wednesday evenings are called Church Nights by Christian Church. The entire evening is spent by many of the members at the church. The first part of the evening is used for the Prayer Meeting service. Then from 7:45 on time is spent in a social. The Loyal Women's Class will furnish the entertainment of the social part. In the prayer meeting session, the minister will give an address on the New Testament epistle, First Thessalonians. The members of the Christian church invite their friends to spend this evening with them at the church.

Announcement was made last Sunday that during this week there would be taken to each home literature concerning Foreign Mission work. In each envelope there is being placed the treasure's report individual's contributions to the church and to missions last year. The month of March is regularly considered the time for special missionary offerings for this church.

The Official Board will have its meeting at the Minister's Study on Friday evening of this week.

The social given to the young people of the Christian Church and Bible School was enjoyed by a large number at the church last night.

## SENT TO CAMP TAYLOR

William F. and Frank Wallingford, the two Robertson county selects who caused a big commotion on the streets Monday night when they tried to take the town, were released from the custody of the city officials yesterday afternoon and sent to Camp Zachary Taylor on C. & O. train No. 1. The young fellows had been drinking when they caused the big excitement on Monday night, but they were quite subdued yesterday. It is quite likely that upon their arrival at Camp Taylor they will be tried by court martial, and if this happens they will probably get what is coming to them.

## BIGGEST SALES OF SEASON

Held on Maysville Tobacco Market Yesterday When \$41,850 Pounds Are Sold at From \$5 to \$54 Per Hundred—Prices Are Slightly Higher.

The biggest and best sales of the season were held on the Maysville tobacco market yesterday and the growers are much gratified over the prices they received, the market showing a rise of about one dollar. Yesterday's sales totaled \$41,850 pounds, prices ranging from \$5 to \$54 per hundred.

It is expected that this will be the biggest week of the season on the local market as all the houses are filled with overflowing and all the roads leading to Maysville continue to be filled with passing wagons loaded with tobacco. The crops from Brown county, Ohio, also continue to come in. Maysville is the market to secure the high prices and the growers know that they are making no mistake when they sell here.

Following were the reports from the various houses yesterday: Block sale at Amazon house. No sales at Home and Growers houses.

## WAR LEGISLATION UPPERMOST TOPIC IN CONGRESS

Washington, February 26 — Both houses of Congress continued to drive ahead on war legislation today, putting aside all other legislation.

In the House debate on the Administration railroad bill continued and in the Ways and Means Committee the war finance corporation bill was under discussion.

In the Senate the war finance corporation bill was under debate with prospect of being accepted with most of the amendments proposed by the Finance Committee.

## NO TIME LIKE THE PRESENT

Captain Frank H. Ellison, well known retired river man, was a visitor in the city yesterday in the interest of the proposed revival of river trade and river improvements. He said that there was never a more propitious time to go after the re-establishment of trade on the Ohio river as the present and it was up to the cities along the river to push the thing through.

## WHARFBOAT SINKS

At Foot of Market Street Early This Morning — Was Valued at About \$1,000 and Partially Insured — Not Much Chance of Boat Being Saved—Is Property of Captain C. M. Plister.

The Maysville wharfbat, owned by Captain C. M. Plister, sank at its moorings near the foot of Market street early this morning and is probably a total loss.

The boat sprung a bad leak about 3 a. m. and although every effort was made to keep it from sinking it was to no avail. By 5 o'clock the outside of the boat was resting on the grade and there was about three feet of water in that side of the boat.

There was a large amount of freight on the boat at the time it began to sink but fortunately the steamer Tacoma came into harbor and the entire crew was put to work unloading the contents of the wharf.

Captain Plister this morning said that the wharfbat had been badly buffeted during the breaking up of the ice in the river several weeks ago and because of it being so old it was a wonder that it had held together as long as it did. The boat was valued at about \$4,000 and was partially insured. To build another boat like it at the present cost of material would cost about \$10,000.

There is not much chance of the boat being saved as it has a concrete bottom and because of being so old probably break in two if any effort were made to move it.

The freight on the boat was worth about \$2,000 and this morning it is all piled upon the river bank while the people to whom it belongs, mostly Maysville merchants, are endeavoring to find what belongs to them. This is somewhat of a job, however, as the freight is piled up in haphazard fashion and scattered about.

The Ladies' Working Societies of the Central and First Presbyterian Churches are having an all-day sewing at the latter church today. The two societies are making outfits for the Belgian babies, a work very much needed work at this time.

Misses Katherine and Mary Oldham left yesterday morning for Seattle, Wash., to make their future home. The father, Mr. Samuel Oldham, of Carlisle, formerly of this city, will follow later.

Mr. King Willett remains seriously ill with double pneumonia at the home of Mr. Ernie White, on West Front street.

## INSURED FIGHTERS

War risk insurance has been advocated chiefly as a matter of justice to the soldier's families. Viewed in that light alone, it is an admirable institution (in comparably better than our old pension system). But it has another merit which is brought into deserved prominence by Gen. Scott, commander of a division at Camp Dix, N. J.

This military insurance, says Gen. Scott, will be one of the greatest factors in creating an unquenchable morale among our troops as they go to the fighting zone. "Instead men," he says, "are generally the best fighters."

Undoubtedly the thoughts of those dependent on a soldier for support or help are prone to disturb the mind of the harvest fighter in a crisis. The certainty that the loved ones will, in case of his death or disablement, receive money enough to keep them from want, will help the soldier to go into battle with a clearer conscience and a stouter heart.

We need not rush ahead to the conclusion that lives will thus be thrown away. Calm courage is a factor not only of victory, but of safety. The man who fears death from no matter what motive is more likely to be killed than the man who goes into the fight undisturbed by any sort of fear-thoughts.

Thus we have special reason to rejoice that the great majority of our troops have seized the liberal insurance opportunity offered by the government.

## BOY SCOUT LEADERS

The war has been hard on the Boy Scouts. The boys have been spared, but their leaders have been taken, and as a result the ranks of the Scouts have been thinning.

An earnest effort has been made lately to gain recruits. The national council wants to swell the number of Scouts to 2,000,000. It wants 100,000 men who are ineligible for military service to act as Scoutmasters. It wants a fund that will yield \$200,000 a year. All three of these aims deserve complete success.

"Anything that is done or given to increase the war efficiency of the Boy Scouts of America," says President Wilson, "will be a real contribution to the nation, and will help us win the war."

There is more involved than the active work of the boys themselves. It should be recognized that when we turn a mere boy into a Boy Scout, we take him off the list of possible delinquents. In war time there is special danger of boys turning to evil ways, because with fathers and big brothers absent they are under less restraint. It has been the experience of every belligerent nation that as the war proceeds, juvenile crime increases.

This fine organization has a genius for keeping lads straight and decent, building up their character in a susceptible and formative period and giving them an exceptionally good chance to turn out well.

## WHERE IT'S CHEERFUL

Capt. Amundsen, the Norwegian explorer, has been visiting the trenches in France. If he expected to find any gloom and discouragement he was illused. "It was stimulating," he says, "to live for a couple of days in that atmosphere of hope, conscious strength and action."

Every visitor on any allied front comes back with the same story. It is a phenomenon long grown familiar in England. Soldiers on leave often say they're "glad to get back to the trenches, where it's cheerful." It's only the civilian safe at home who are oppressed by doubts and fears.

It's the same with us. Nearly all the well-meaning and ill-acting people who have been sowing pessimism in this country during the last two or three months would be transformed into enthusiastic optimists if they could spend a little time at the front.

Washington lately has been a gloom factory. The antidote for Washington is the American sector in France. A somewhat milder but still effective antidote is the atmosphere of our home cantonments. The boys who have to do the fighting and dying are not worrying about the war. It's only the arm-chair and platform fighters who are in despair.

Speaking of the "self-determination of subject nationalities," it is worthy of note that the United States, after buying the Danish West Indies, has given the 10,000 inhabitants the privilege of keeping their Danish citizenship if they like, and only 100 of them have done so. We may consider that we have a pretty clear title to the islands.

## IN MISERY FOR YEARS

Mrs. Courtney Tells How She Was Cured by Lydia E. Pinkham's Vegetable Compound.

Oskaloosa, Iowa.—"For years I was simply in misery from a weakness and awful pains—and nothing seemed to do me any good. A friend advised me to take Lydia E. Pinkham's Vegetable Compound. I did so and got relief right away. I can certainly recommend this valuable medicine to other women who suffer, for it has done such good work for me and I know it will help others if they will give it a fair trial."  
—Mrs. LIZZIE COURTNEY, 108 8th Ave., West, Oskaloosa, Iowa.

Why will women drag along from day to day, year in and year out, suffering such misery as did Mrs. Courtney, when such letters as this are continually being published. Every woman who suffers from displacement, irregularity, inflammation, ulceration, backache, nervousness, or who is passing through the Change of Life should give this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial. For special advice write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of its long experience is at your service.

The new loaf may be baked singly or in twin form (two in a pan) and its manufacture is subject to the same rules as all other bread. The new weight simply adds an additional weight loaf size. ## WHERE DO YOU SELL YOUR TOBACCO?

ROBERT WELLS,  
Sales Manager.

R. L. TURNER,  
President.

J. E. CUTHRELL,  
Auctioneer.

AT WASHINGTON THEATER TONIGHT.

If environment has to do with the making of men in their calling, the principal comedians connected with the Al G. Field Greater Minstrels have been greatly favored.

Billy Beard, the leading comedian of the company, Lassie White, who is more than a good second, Gov. Bowen, who comes next on the list and Little Johnny Haley, owe much of their success to the environments of their early life.

Billy Beard was born and lived all the early days of his life within the southern cities of Columbia, S. C., and Atlanta, Ga. Observation and daily contact with negroes, the absorption of their uncouth humor has greatly to do with his success as a minstrel. Beard chose rather the high brown type of negro as his standard and his impersonations of this sort of negro in his special forte.

Lassie White, who first saw daylight in Dallas, Texas, has been a close observer of the genuine, simon-pure, slow-foot negro—the one who looks upon life as only a pretext to dodge work and trouble; to live on the sunny side of the street; when it's too hot in summer and too cold in winter to work.

Gov. Bowen was born in old Kentucky where the colored man and brother learns to sip the bourbon while on his mammy's breast and is at home on a horse's back as soon as he can climb the fence around the paddock.

Johnny Healy (the Parson) is a product of "Ole Virginny," where the aristocracy of the colored race flourished for so many years. All the preachers and all the leaders of the colored race emanated from Virginia. All the others are imitators. Johnny Healy's impersonation of the Parson has made his reputation.

The environments, the surroundings of their early lives seems to have had to do with their impersonations of characters on the stage. Al G. Field has presented many funny minstrel men to his world of patrons, but we doubt if he has ever had four who were so versatile and talented as the quartette above mentioned.

## EFFICIENCY

Talking about American efficiency, the shoe factories of the United States have received contracts for 21,000,000 pairs of Army and Navy shoes since war was declared. These shoes, pack-

ed in cartons, would make a pile twice the width of the Washington Monument, the same depth as the Monument and over quarter as high again. An army wearing these 21,000,000 pairs of shoes would take over two months to pass a given point.

## JAPS TO ACT IN SIBERIA

Long Prepared Plans of Japan in Siberia Will Be Carried Out.

Harbin, Wednesday, February 20.—The Japanese, according to reliable authority, intend to take action in Siberia at an early date, and there are evidences that the Japanese have long been preparing to carry out this move.

The situation in Siberia is considered extremely grave, owing to the inability of the Cossack general Semenov, head of the anti-Bolshevik movement in that vast territory to secure allied support, for which he has appealed to the Japanese.

General Semenov's movement now is officially recognized, and a general committee has been formed at Harbin, which will act as a general staff, divided into three departments — financial, military and administrative. The Russian consul, Mr. Popoff, has

been appointed chairman of the committee.

Two thousand Germans have been armed and are drilling at Irkutsk, capital of the Government of Irkutsk, in eastern Siberia, and, according to an official report received from a foreign consul, the Germans are making all preparations to bring much larger forces there.

MAYORS OF RIVER TOWNS TO GATHER

Cincinnati, February 26.—Mayors of Ohio valley river cities will be invited to meet in Cincinnati March 20 to consider river improvements and answer the government's questions in regard to river trade restoration program.

The meeting, which will be held under the auspices of the Ohio Valley Improvement Association, was decided on today at a conference of the executive committee of the association and Mayor Galvin. Mayor Galvin and officials in other cities are confident much good will result from the conference.

"The conference planned by the Ohio Valley Improvement Association will give us an opportunity to get together on a big program, said Mayor Galvin. "We will answer the government. It has asked us what we will guarantee we will do. We will ask it what its part of the bargain will be. Our plan is to urge the government to go ahead with its big river program and to pledge our support of that program."

"The Cincinnati meeting will not conflict with a meeting planned by the Huntington, (W. Va.) officials. Their meeting is to be one of ship-ment to consider the building and operation of boat lines."

## A POPULAR VERDICT

Based on Evidence of Maysville People.

Grateful thousands tell it—Of weak backs made strong—Of weak kidneys made well—Urinary disorders corrected. Maysville people add their testimony.

They praise Doan's Kidney Pills. Maysville evidence is now complete. Maysville testimony is confirmed: Reports of early relief substantiated.

Merit doubly proved by test of time. Let a Maysville citizen speak. Fred Dresel, tailor and justice of the peace, 1233 East Second Street, says: "I was troubled by inflammation of the bladder and annoyance from my kidneys. The kidney secretions burned in passage and often were retarded. I had severe pains across the small of my back which greatly interfered with my work. Doan's Kidney Pills, which I got at Wood & Son's Drug Store, gave me prompt relief."

Mr. Dresel gave the above statement on February 6, 1908, and on November 14, 1916, he added: "I have had the same faith in Doan's Kidney Pills today as ever, for I haven't had any trouble with my kidneys since I last recommended them."

Mr. Dresel is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for DOAN'S KIDNEY PILLS, the same that Mr. Dresel had—the remedy backed by home testimony. 60c at all stores. German people will be forced to make when the offensive starts in the West, the Central News correspondent at Amsterdam reports.

Both the military critics and the war correspondents are joining in this verbal battery work.

"A most monstrous terrible thing is awaiting this continent," the Vossische Zeitung says. "Never in history will the memory of this February be effaced."

In the Tageblatt, the military expert of that newspaper, Lieutenant-General Baron Armand von Ardenne,

## ARMISTICE TO RUSSIANS

Refused By Germany—Slay Rules to Make Resistance Principal Task—Huns Reported as Nearing Russ Capital.

Petrograd, February 26—(British Admiralty Per Wireless Press)—"Germany has formally refused to grant an armistice, and German detachments continue to advance," says an official statement issued today.

"Resistance thus becomes the principal task of the revolution." "Russia's greatest strength lies in her wide territories, and the government can, and if need be, will retreat. If the threat against Petrograd increases, the government will remove to Moscow or another city."

## STRONG ARGUMENT

For Full Time Health Officer For Mason County Was Editorial in Last Saturday's Ledger, Says Attorney Stanley F. Reed.

To The Ledger:

Your editorial in last Saturday's issue entitled "County Teeth" carried a strong argument for a Full Time Health Officer.

You call attention to the physical deficiency of the boys from the rural districts, as found by the military medical examiners, and after stating that many of these defects are the result of not caring for children's teeth, you call upon the city, state or government to take steps to correct this evil.

The Federal and State governments have agreed to do this work if this county will bear a portion of the cost.

A Full Time County Health Officer would not only see that the children's teeth are regularly examined, and urge upon parents their proper care, but he would examine all school children at regular intervals for the purpose of detecting any and all physical defects and point the way to their correction.

There are hundreds of conditions that affect the health of both children and adults and these also will be looked after and improved; if the county will bear a reasonable share of the expense.

The State and Federal governments have the entire plan outlined and only await the answer of our county commissioners. What shall this answer be? Shall we pay the money that our citizens have paid for from their private funds be forgotten and shall Mason county say to the United States Public Health Bureau, "We don't want anything better than we have" or shall we say "we want the cleanest and healthiest community it is possible for us to have."

STANLEY F. REED.

## NEED MORE JUST LIKE BUNCH THAT PERSHING HAS IN FRANCE

An Atlantic Port, February 25—Major General Adelbert Cronkhite, commandant of Camp Lee, Petersburg, Va., who has been making a tour of observation of fighting conditions in France; Lieutenant Colonel C. E. Kilbourne, who has been Major-General Leonard Wood's aid, and was partly blinded in an explosion; O. C. Hayne, of Pittsburgh, and M. Dunn, of Philadelphia, who have been serving with the American Red Cross on the Italian front, were among the passengers aboard a French steamship which arrived here today.

"All that we need is some more men just like them," said Major General Cronkhite, in commenting on the splendid condition in which he found the American soldiers serving overseas.

Lieutenant Colonel Kilbourne was injured with Major General Wood, who was wounded in the arm by the explosion of trench mortar during a demonstration of the weapon on the western front. The Major General's arm from the elbow to the armpit was ripped open by a bit of shell, he said.

Eleven men, three of them French officers were killed by flying fragments of steel. Lieutenant Colonel Kilbourne was hit under the right eye. He returned in the hope that an operation might have saved his sight.

Hayne and Dunn, who have returned to join the American aviation corps said there has been a notable improvement in spirit among Italian troops the past three months.

Washington, February 26—Former President Taft was chosen today by representatives of capital as their representative for the public in the joint conferences here between employers and employees to establish a basis of relations during the war.

## NO CHANGE MADE

In Situation by Hertling Speech—Instead of Making an Advance Toward Peace It is Regarded as Aid to Hun Militarists.

Washington, February 26—Count Von Hertling's speech in the Reichstag yesterday continuing the discussion of the war aims of the belligerent powers, has not changed the situation in the opinion of high officials here. Instead of marking an advance toward peace, it is regarded rather as deliberately calculated to strengthen the hands of the German militaristic party by endeavoring to convince the German proletariat of the impracticable nature of President Wilson's aims as disclosed in his last address to congress on February 11.

While stating his readiness to accept the President's four fundamental principles for a basis of peace, the German chancellor dismissed them as idealistic and unworkable by insisting that they must depend for their application upon the realization of conditions which can not be met. In the official view his treatment of the subject was ironical and designed for very different ends than the advancement of peace.

There will be no immediate formal comment upon this latest contribution to the debate on war aims and peace aspirations. Experience has taught officials that important qualifications are to be found equally in the full text of the speeches of the spokesmen of the Central Powers.

Attention was directed by officials to President Wilson's formal characterization of the German chancellor's utterances as "very vague and confusing" and it was said that the President's comment had a peculiarly apt application to the speech of yesterday in which Von Hertling signified his fundamental agreement with President Wilson's four principles.

President Wilson in his last address to congress said of the chancellor's speech delivered a few days before:

"His discussion and acceptance of our general principles lead him to no practicable conclusions. He refuses to apply them to the substantial items which must constitute the body of any final settlement."
